Re: Justification for Label Location

FCC: 2AD9X-KF2GIG

To Whom It May Concern:

Per our label location exhibit, we will place our label on the inside of the housing Lid. The outside of the small sensor housing would degrade the appearance of the sensor. The inside of the Lid is easily accessible and visible when accessing the battery.

Sincerely,

A handwritten signature in black ink, appearing to read "P. Justin Carlson" or similar, with a stylized flourish at the end.
